What can we do at a COMMUNITY RESOURCE CENTRE?

The Kununurra CRC was originally established in 1992 to service the community of Kununurra.

We currently provide a number of services to our community and the region. We play an important role in helping keep community members in touch and up to date with current technology.

If you ever wondered what we do then come into the Centre and have a chat, we can offer a range of services from video or web based conferencing to sending and receiving faxes, accessing the internet, design and build your own website or access online Government information and services or ask for more information about many technological thingies!

If you would like more information on our services and how we can help you with any of your ICT needs, have a browse around our web site, drop in or send us an email or give us a call.
